

INTELLIGENT INSTORE ACTIVATION.

ENVIRONMENTAL POLICY STATEMENT

Our environmental strategy is to carry out our business with the minimum impact to the environment, including compliance with all statutory legislation, the prevention of pollution, and the innovation of recycling and waste reduction strategies.

This will be achieved through:

- The identification, monitoring and control of our environmental aspects and impacts
- The setting, monitoring and review of environmental Objectives (risks and opportunities)
- The management of waste and packaging, including setting of recycling targets and strategies
- Monitoring of processes to prevent pollution, nuisance, and wastage
- Relevant training and awareness for employees and the supply chain
- Design and review of products based on a 'life cycle' approach
- The management of energy and fuel
- Arrangements and controls for environmental emergencies, spills, and leaks
- Communication of our environmental policy, both internally and externally to interested parties
- An annual internal audit programme
- An annual Management Review monitoring performance, targets, and objectives, leading to continual improvement

All employees of Display Creatives UK Ltd are encouraged to participate in and contribute to our environmental performance through suggestions and innovations.

Date: 3rd January 2023
